15<sup>th</sup> Feb 2017

Dear Simon

**Review of CCCEP's list of publications for its Mid-Term Review and in the RCUK Gateway to Research**

Thank you for your letter dated 24<sup>th</sup> January 2017 regarding the review CCCEP have undertaken on its lists of publications for its Mid-Term Review and those that appear on the RCUK Gateway to Research.

Mid-Term Review

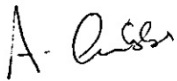

We note the outcomes of the review and we are happy for you to publish the list of errors alongside the Mid-Term Review on the CCCEP website. Please notify us in advance of publication.

Researchfish / Gateway to Research

We note the review for Phase 1 and Phase 2 publications on the data provided through Researchfish (which updates Gateway to Research) and the issues affecting the submissions (as listed in Appendix 2 in your letter). We acknowledge that the inaccurate entries will be removed. This action should be completed within the ResearchFish Annual Submission period for 2017, which ends at 4pm 16<sup>th</sup> March 2017.

I would also like to confirm our view that publications and outputs that are not directly related to funding from ESRC should not be included in the Centre's Researchfish data, and ask that this action is undertaken within the Researchfish Annual Submission period.

Best wishes

Andy Gibbs  
Head of Economic, Performance and Environment
